

LGV Driver Training

Thank you for your recent enquiry into driver training.

I have enclosed some information for you to have a look at which I hope explains to you what is involved in driver training – from obtaining your medical, through your theory tests into your practical training.

The envelope includes all the forms you will need to get started and obtain your provisional category C licence. If you decide to use Barnetby Medical Practice, then can you please complete the form attached to their card and take it with you when you go for your medical.

We offer driver training 5 days a week and we train on a one to one basis with a timetable to suit you. All tests take place during the week and the time and availability is determined by the DVLA.

Our recommended timetable is 22 hours of driver training (taken in 4 to 8 hour slots) followed by 2 hours driving prior to your practical test. If you would like more or fewer lessons or prefer not to do an intensive course that we are happy to arrange a timetable to suit your individual needs.

The cost of the standard timetable is £1050 + VAT + £115 test fee. Discounts are available for individuals wishing to do both Class 2 and Class 1 training with us.

We have packages available and special offers from time to time but if you would like a personalised quote please do not hesitate to contact us.

If you would like any further information/clarification on any matter or would like to check for availability for a booking, please call 01469 577656 or email enquiries@transafetraining.co.uk

We are here to help.

STEP BY STEP GUIDE TO LGV TRAINING

STEP 1:

Obtain relevant forms to apply for provisional entitlement

the forms required are D2 and D4 (Envelope reference EN244p) these can be obtained from the DVLA or your local Post Office.

Medical examination

your own GP can conduct the required medical examination and will complete form D4 on your behalf. Transafe Training recommends a local medical in Brigg that charges just £50 for the LGV medical. Please contact our offices for further details.

STEP 2:

Apply for your provisional entitlement

complete forms D2 and D4 and then return them to the DVLA. Please ensure you select the correct category from section 3 on D2.

STEP 3:

DSA Multiple Choice & hazard perception test

you need to have passed your theory & hazard perception test in order to be eligible for your practical test. You can book your theory & hazard perception test via the DSA website or alternatively we can book this for you.

STEP 4:

LGV practical driver training

Here at Transafe Training, we offer quality LGV training on a one to one basis, with experienced instructors who boast high pass rates. Our standard LGV timetables consist of 22 hours training which is broken down into 5 sessions of 4 hours. The remaining 2 hours training takes place before test. However, we can happily arrange timetables that accommodate the needs of individuals. We also offer a discount for those drivers who wish to complete both their Category C and C+E training with us.

STEP 5: **DSA LGV driving test**

This is arranged to take place at the end of your practical training. You will receive 2 hours of Practical tuition before the test commences.

PASSED

If you are ready to begin your journey, please contact our offices.

Thinking of Becoming a Large Goods Vehicle Driver?

If you are considering earning a living from driving a large good's vehicle (LGV) and are unsure where to start, here is a brief summary of the stages required to achieve your LGV licence. **You must be over 18 years of age and hold a full car licence.**

STEP 1 & 2: ATTEND A MEDICAL AND APPLY FOR YOUR PROVISIONAL LGV LICENCE (we can supply you with a starter pack).

- Our starter pack contains medical forms (D4) together with details of a local medical practice which conducts LGV medicals efficiently and cost effectively. The form will be completed by the doctor once you have undergone your medical.
- Also, within the pack is your LGV licence application form (D2) together with supporting notes on its completion. This should be completed by the applicant and sent to the DVLA (addressed envelope) along with the completed D2 form and both parts of your current driving licence. *There is no charge for applying for an LGV Licence.*

Your provisional licence will normally take between 2-3 weeks to be returned to you, assuming there are no problems with your application.

STEP 3: BOOK YOUR THEORY AND HAZARD PERCEPTION TESTS

Once you have received your provisional licence, you can contact us on **01469 577656** and we can arrange your theory tests. Alternatively, you can independently book your LGV theory tests - Multiple Choice and Hazard Perception online at; www.gov.uk/book-a-driving-theory-test

There are a large number of theory test centres locally so if you cannot find the desired test date in your nearest test centre, you may be able to book in nearby. Currently there is a two-week lead time for your theory tests.

STEP 4: CALL US ON: 01469 577656.

When you have passed both your theory and hazard perception tests and have received your pass certificates, you are then ready to commence your practical training!

Our experienced and knowledgeable instructors will provide you with the skills and understanding required to prepare you for your practical test at the end of the course.

The test will be carried out by an independent examiner at our local D.O.T. test centre in Grimsby. He will monitor your driving skills whilst driving round the streets of Grimsby and Cleethorpes and will provide you with feedback and a written assessment of your performance.

Should you not wish to take the recommended number of lessons, we are happy to devise a different timetable and quote a price accordingly.

Alternatively, you may not wish to take the intensive course and wish to do your training 'as and when'. Whatever your requirements, we will do our very best to meet them.

Call us or email us today to arrange a convenient timetable that suits your skills and fits in with your work commitments.

Discounts are available for candidates requiring training for Cat C and C+E, as well as Initial Driver CPC. Call us for a price.

Theory Tests

Part of the LGV Training process is to pass the Hazard Perception and Multiple Choice Theory test.

Hazard Perception Test £11.00

The Hazard Perception Test: will consist of a series of film clips, shown from a driver's point of view. Before you start this test, you will be shown a short tutorial video that explains how the test works and gives you a chance to see a sample film clip. This will help you understand what you will need to do.

During the test you will be shown 19 film clips, each clip contains one or more developing hazards. You should respond by pressing the mouse button as soon as you see a hazard developing that may result in you, the driver, having to take some action, such as changing speed or direction. There are 20 hazards in total that will be scored.

Every time you click, a red flag will appear on the bottom of your screen in order to show your hazard has been noted. In order to pass this test, you will need to score at least 67 out of 100.

Multiple Choice Test £26.00

The Multiple Choice tests: will consist of 100 multiple choice questions, of which you will need to get a minimum of 85 correct, most questions will ask you to mark 1 correct answer from 4 possible, some questions may ask for 2 correct answers.

Before you start you will be given the chance to work through a practice session for up to 15 minutes to get used to the system. Staff at the test centre will be available to help you if you have any difficulties.

The questions will cover a variety of topics relating to Road Safety, The Environment and Documentation. Only one question will appear on the screen at a time (you can listen to the questions using headphones during the test, if that helps).

Useful Websites:

<http://www.nidirect.gov.uk/theory-test-for-lgv-and-pcv-drivers>

<https://www.safedrivingforlife.info/professionals/i-want-drive-living>

You need to pass both theory tests before you can commence your practical driver training.

If you would like some idea of what is involved, www.gov.uk/practise-your-driving-theory-test will provide further information and free practice questions for you to gain a better understanding of what to expect.

INITIAL DRIVER CPC

DID YOU GET YOUR FULL CAR LICENCE AFTER JANUARY 1997 AND HAVE NO CATEGORY C OR D ON YOUR LICENCE?

DO YOU WANT TO EARN A LIVING FROM DRIVING LGV?

If you answered yes to both above questions, then your training is not complete. You must take your **Initial Driver CPC qualification** before you can get paid for driving for a living.

The qualification is in two parts:

Module 2 Theory Case Study Test (Fee £23) – A computerised theory test based on case studies and sat at a theory test centre. This must be taken before you are eligible to sit

Module 4 Practical Test. The test requires the candidate to attend the driving test centre with an LGV vehicle. The half hour test requires the candidate to answer questions and demonstrate their ability regarding vehicle safety and proper use.

We can offer advice to help you through your Part 2 and provide the documentation and practical training to help you pass your Part 4.

If you passed your car test in the UK before 1997 & have a C1 on your licence you have a choice to do the Initial CPC (above) or our 5 day Periodic CPC to gain your 35 hours.

DID YOU GET YOUR LGV LICENCE BEFORE SEPTEMBER 2009?

If so, you are exempt from the Initial Driver CPC Qualification but do have to undergo 35 hours of periodic training to demonstrate that you are keeping up to date with requirements of the industry.

We hold several courses which are eligible to earn drivers' hours. Please contact us for details of intensive and individual modular driver CPC courses, ADR.

The link below will take you to a website in which you can purchase a Module 2 theory test DVD which has proved useful for previous candidates;

www.drivingtheory4all.co.uk/public/driving-theory-test/driver-cpc-test-LGV-Driver-CPC.htm
